Landing Page Design Specifications

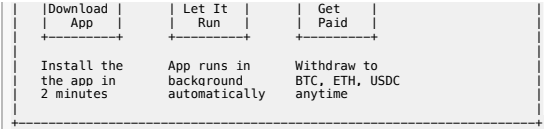

Above the Fold (Hero Section)

Hero Requirements: - Headline: 8 words or less - Subheadline: 1-2 sentences max - Single primary CTA (contrasting color) - 3 benefit bullets with checkmarks - Device mockup showing app/earnings

How It Works Section

Social Proof Section

REAL PEOPLE. REAL EARNINGS.

[Photo]

Maria PH

"I've earned \$47 this month with 3 phones. Just let them run and check my balance occasionally. Easiest money ever."

[Photo]

Ahmed NG

"As a student, \$12/month covers my data plan. Phone does everything automatically."

[Earnings screenshot grid - 4-6 real dashboard images]

JOIN 500+ ACTIVE EARNERS IN OUR DISCORD -->

FAQ Section

FREQUENTLY ASKED QUESTIONS

> How much will I actually earn?
Earnings range from \$4-30/month depending on location, uptime, and network demand. Average is \$5-9/month. Top performers with 95%+ uptime can reach \$20-30/month.

> Why the \$1.99/month fee?
The fee covers operational costs and ensures committed users. You earn \$4-30/month, making it profitable from day one. Split options: 50:50 to 60:40 (you/operator).

> Will it drain my battery?
No. Optimized for less than 5% battery impact. Most users don't notice any difference.

> What does the app actually do?
It helps telecom companies verify their network quality. Your phone runs small connectivity tests in the background.

> How do I withdraw my earnings?
Withdraw to BTC, ETH, USDC, or other crypto. Minimum \$5.

> Is my data safe?
Yes. No personal data is collected or transmitted. Only anonymized network telemetry.

Technical Specifications

Requirement	Specification
Platform	Rust/Leptos (WASM) or Webflow (no-code)
Load Time	< 2.5 seconds LCP (Largest Contentful Paint)
Mobile	Mobile-first responsive design
CDN	Cloudflare or Vercel Edge
Analytics	Google Analytics 4 + Hotjar heatmaps
Forms	ConvertKit or Mailchimp integration
SSL	Required (HTTPS only)
Domain	Custom domain (e.g., earnwith[name].com)

Recommended Tech Stack

- Option A: No-Code (Fastest) - Webflow or Framer - ConvertKit for email - Tally or Typeform for forms - ~\$20/month
- Option B: Rust/Leptos (Performance + Control) - Leptos (Rust WASM framework) - Tailwind CSS for styling - Shuttle.rs or Fly.io hosting - Resend for email - ~\$5-15/month

Conversion Optimization Tactics

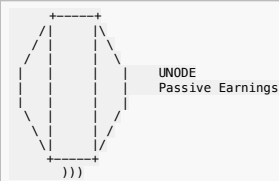

Tactic	Implementation
Exit Intent Popup	"Wait! Get our quick-start guide before you go"
Social Proof Notifications	"Maria from Philippines just started earning!"
Urgency (Authentic)	"500+ people joined this month"

Tactic	Implementation
Sticky CTA	Mobile: fixed bottom button
Live Chat Widget	Discord widget or Intercom
Trust Badges	"No Personal Data Collected" badge

2. Logo & Brand Identity

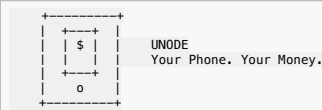

Logo Concept Options

Option A: "U + Signal Waves"

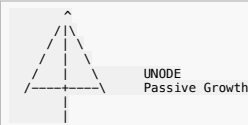

Concept: Stylized "U" with emanating signal waves
Represents: Connectivity, network, passive transmission

Option B: "Phone + Dollar"

Concept: Smartphone with dollar symbol
Represents: Phone earning money, simple concept

Option C: "Upward Arrow / Growth"

Concept: Upward arrow with "U" shape
Represents: Growth, passive increase, earning

Brand Color Palette

Color	Hex	Usage
Primary Dark	#0A0E17	Backgrounds, headers
Primary Accent	#00D4AA	CTAs, highlights, links
Secondary	#6366F1	Secondary buttons, gradients
Success	#22C55E	Positive earnings, confirmations
Warning	#F59E0B	Alerts, important info
Text Primary	#FFFFFF	Headlines on dark
Text Secondary	#94A3B8	Body text, descriptions

Color Application

BACKGROUND: #0A0E17 (dark navy/black)

HEADLINE (#FFFFFF)
Body text (#94A3B8)

[CTA BUTTON (#00D4AA)]
Link text (#00D4AA)

Typography

Element	Font	Weight	Size
Headlines	Inter / Poppins	Bold (700)	32-48px
Subheadlines	Inter / Poppins	Semi-bold (600)	20-24px
Body	Inter / Open Sans	Regular (400)	16-18px
CTAs	Inter / Poppins	Bold (700)	16-18px

Element	Font	Weight	Size
Captions	Inter / Open Sans	Regular (400)	12-14px

Logo Specifications

Format	Use Case
Primary (Full)	Website header, documents
Icon Only	App icon, favicons, social avatars
Horizontal	Email signatures, banners
White Version	Dark backgrounds
Dark Version	Light backgrounds
Minimum Size	24px height (icon), 100px width (full)
Clear Space	1x logo height on all sides

Brand Voice Guidelines

Attribute	Do	Don't
Tone	Friendly, honest, direct	Corporate jargon, hype
Language	Simple, accessible	Technical crypto terms
Claims	Realistic (\$4-30/month)	Overpromise (\$100+/month)
Approach	Transparent, helpful	Salesy, pushy

Brand Personality Keywords: - Trustworthy - Simple - Honest - Modern - Accessible

3. AI Agent Marketing Automation

AI Tools Stack

Content Generation

Tool	Use Case	Cost	Priority
ChatGPT / Claude	Ad copy, scripts, content ideas	\$20/month	High
Jasper	Marketing copy at scale	\$49/month	Medium
CapCut	AI video editing, captions	Free	High
Canva AI	Graphics, thumbnails, templates	\$13/month	High
ElevenLabs	AI voiceovers for videos	\$5-22/month	Medium
Midjourney/DALL-E	Custom graphics, mockups	\$10-20/month	Low

Social Media Automation

Tool	Function	Cost
Buffer	Schedule posts across platforms	Free-\$15/month
Hootsuite	Advanced scheduling + analytics	\$99/month
Later	Visual planning, link in bio	Free-\$25/month
Manychat	Instagram/FB DM automation	\$15/month

Ad Automation

Tool	Function	Cost
Synter	AI ad creation for 14+ platforms	\$99/month
AdCreative.ai	Generate ad creatives at scale	\$29/month
Madgicx	Meta ads AI optimization	\$49/month
Revealbot	Automated ad rules and scaling	\$99/month

Chatbots & Support

Tool	Function	Cost
Intercom Fin	AI-powered customer support	\$29/seat/month
Tidio	Website chatbot + AI responses	Free-\$29/month
ManyChat	Instagram/Messenger automation	\$15/month
Discord Bots	Community automation (MEE6, etc.)	Free-\$12/month

AI Workflow Implementation

Content Creation Workflow

AI CONTENT WORKFLOW 1. IDEATION (ChatGPT/Claude) +-- Generate 10 content ideas per week Input: "Give me 10 TikTok video ideas for a passive income phone app targeting students" 2. SCRIPTING (ChatGPT/Claude) +-- Write scripts for top 3 ideas Input: "Write a 15-second TikTok script for: 'Earnings reveal' format, casual tone" 3. VISUAL CREATION (Canva AI + CapCut)
--

```

+-- Create thumbnails, edit videos
- Canva: Thumbnails, carousel graphics
- CapCut: Auto-captions, trending effects

4. SCHEDULING (Buffer/Later)
+-- Auto-post to all platforms
- Set optimal posting times per platform
- Queue 1 week of content at once

5. ENGAGEMENT (Manychat)
+-- Auto-respond to DMs
- "Send me link" -> Auto-reply with landing page
- FAQ automation

```

Ad Automation Workflow

```

+-----+
| AI ADS WORKFLOW |
+-----+
1. CREATIVE GENERATION (AdCreative.ai / Synter)
  +-+ Generate 10 ad variations
    - Headlines, images, videos
    - Platform-optimized sizes
2. A/B TESTING (Platform Native)
  +-+ Launch 5 creatives per ad set
    - Let algorithms find winners
    - 3-5 day testing window
3. OPTIMIZATION (Madgicx / Revealbot)
  +-+ Automated rules
    - Pause ads with CPA > $10
    - Scale ads with CPA < $5
    - Auto-duplicate winning ad sets
4. REPORTING (Platform + Google Sheets)
  +-+ Weekly automated reports
    - Spend, conversions, CPA
    - Top creatives, underperformers
+-----+

```

Community AI Automation

```

+-----DISCORD BOT AUTOMATION-----+
+
+ BOT: MEE6 / Carl-bot + Custom
+
+ Auto-Welcome:
+   +--- New member joins -> DM with quick-start guide
+
+ FAQ Bot:
+   +--- "earnings" -> Explains typical earnings
+   +--- "!withdraw" -> Explains withdrawal process
+   +--- "!setup" -> Links to tutorial video
+
+ Milestone Celebration:
+   +--- User posts in #earnings-proof -> Auto-react + congratulate
+
+ Moderation:
+   +--- Auto-delete spam, scam links
+   +--- Auto-mute rule violators
+
+ Engagement:
+   +--- Daily "How much did you earn today?" prompt
+   +--- Weekly leaderboard post
+
+-----+

```

Recommended AI Stack (Budget Tiers)

Tier 1: Minimal (\$0-50/month)

Tool	Cost	Function
ChatGPT Free	\$0	Content ideas, basic copywriting
Canva Free	\$0	Basic graphics
CapCut Free	\$0	Video editing with AI captions
Buffer Free	\$0	Schedule 3 channels
MEE6 Free	\$0	Basic Discord automation
Total	\$0	

Tier 2: Growth (\$100-200/month)

Tool	Cost	Function
ChatGPT Plus	\$20	Advanced content, GPT-4
Canva Pro	\$13	Full template access
AdCreative.ai	\$29	AI ad creatives
Buffer Essentials	\$15	More channels, analytics
Manychat Pro	\$15	DM automation

Tool	Cost	Function
Tidio	\$29	Website chatbot
Total	\$121	

Tier 3: Scale (\$300-500/month)

Tool	Cost	Function
Claude Pro	\$20	Advanced reasoning, long context
Jasper	\$49	Marketing copy at scale
Synter	\$99	Multi-platform ad automation
Hootsuite	\$99	Enterprise social management
Intercom	\$29	Professional support
Revealbot	\$99	Ads automation
Total	\$395	

AI Prompt Templates

Content Generation

PROMPT: TikTok Script Generator You are a viral TikTok content creator. Create a 15-second script for a video about a passive income phone app (\$1.99/mo, earns \$4–30/mo). Target audience: Students and gig workers in emerging markets Tone: Casual, authentic, slightly surprised/excited Format: Hook (3 sec) -> Body (9 sec) -> CTA (3 sec) Key message: Earn \$4–30/month passively with your phone The video should feel like a real person sharing a discovery, NOT like an ad. Include suggested visual actions in brackets.

Ad Copy Generation

PROMPT: Facebook Ad Copy Variations Create 5 variations of Facebook ad copy for: - Product: Free passive income phone app - Audience: 25–40, side hustle seekers - Key benefit: \$4–30/month automatically - Differentiator: Low cost (\$1.99), transparent revenue split (50:50 to 60:40) Each variation should have: - Primary text (125 chars max) - Headline (40 chars max) - Description (30 chars max) Styles: 1) Direct benefit, 2) Question hook, 3) Social proof, 4) Problem-solution, 5) Curiosity gap
--

FAQ Response Generator

PROMPT: Discord FAQ Bot Responses Create friendly, concise responses for these common questions about a passive income phone app: "How much will I earn?" "Is this a scam?" "Will it drain my battery?" "How do I withdraw?" "Can I use multiple phones?" Tone: Helpful, honest, not salesy Length: 2–3 sentences each Include relevant details but stay concise

4. Risk Management & Platform Dependency

Critical Risk Assessment

| **Warning:** The entire business model depends on Unetwork's continued operation. This section addresses platform dependency and mitigation strategies.

Platform Dependency Risks

Risk	Severity	Likelihood	Impact
Unetwork reduces payout rates	High	Medium	Direct revenue reduction
Unetwork technical outage	High	Low	User churn, support burden
Regulatory action against Unetwork	Critical	Low	Business cessation
Token price collapse (MNTx/WMTx)	High	Medium	Reduced effective earnings
Telecom demand decrease	Medium	Low	Lower task availability
Competitor platform emerges	Medium	Medium	User migration

Mitigation Strategies

1. Documentation & Contracts

- ☐ Obtain written agreement from Unetwork on payout terms
- ☐ Document minimum notice period for rate changes
- ☐ Clarify node ownership rights and transferability

- ☐ Establish escalation path for disputes

2. Communication Protocol

PLATFORM CHANGE COMMUNICATION PLAN
IF: Unetwork announces rate reduction THEN: 1. Immediate Discord announcement (within 2 hours) 2. Email to all users (within 24 hours) 3. Updated earnings projections on website 4. AMA to address concerns
IF: Unetwork experiences outage THEN: 1. Status post in Discord (immediate) 2. Regular updates every 2 hours 3. Post-mortem summary when resolved
IF: Regulatory concerns emerge THEN: 1. Legal consultation (immediate) 2. Transparent communication with community 3. Exit strategy activation if needed

3. Revenue Diversification (Post-Establishment)

After reaching 100+ active licenses, consider:

Diversification	Description	Timeline
Other DePIN projects	Add Grass, Honeygain, etc. as alternatives	Month 6+
Crypto education	Monetize community with courses	Month 9+
Affiliate partnerships	Exchange referrals, wallet partnerships	Month 6+
Consulting	Help other UNOs launch	Month 12+

4. Exit Strategy

If Unetwork fails or becomes unviable:

- License Transfer:** Document how to transfer licenses to another UNO
- Community Pivot:** Transition Discord to general DePIN/passive income community
- Asset Recovery:** Understand node sale/transfer options
- Communication:** Pre-drafted message for community if shutdown needed

Risk Monitoring Dashboard

Indicator	Source	Check Frequency	Alert Threshold
Unetwork official announcements	Twitter, Discord	Daily	Any policy change
MNTx/WMTx token price	CoinGecko	Weekly	>30% drop
User earnings reports	Community Discord	Weekly	Consistent complaints
Competitor activity	Google Alerts	Weekly	New major competitor
Telecom industry news	Industry publications	Monthly	Regulatory changes

5. Fiat Off-Ramp Partnerships

UPDATE: Unetwork Native Bank Withdrawals (Coming Soon)

| Important: Unetwork is launching direct bank withdrawals in 47 countries, significantly reducing the need for manual fiat conversion services.

Supported Countries for Bank Withdrawals

Region	Countries
Europe	Austria, Belgium, Croatia, Cyprus, Czech Republic, Denmark, Estonia, Finland, France, Germany, Greece, Hungary, Iceland, Ireland, Italy, Latvia, Liechtenstein, Lithuania, Luxembourg, Malta, Netherlands, Norway, Poland, Portugal, Romania, Slovakia, Slovenia, Spain, Sweden, Switzerland, United Kingdom
Asia-Pacific	India, Singapore, Malaysia, Thailand, Indonesia, Philippines, Vietnam, Australia
Africa	Kenya, South Africa, Ghana, Egypt
Americas	United States, Canada, Brazil

Impact on Strategy

Aspect	Before Bank Withdrawals	After Bank Withdrawals
User friction	High (crypto exchanges required)	Low (direct to bank)
Your role	Manual fiat conversion service	Focus on marketing only
Competitive moat	Fiat service differentiator	Education + community
Target markets	Limited to crypto-savvy	Broader mainstream appeal

Updated Messaging

Website/Discord: > "Withdraw directly to your bank account in 47 countries – no crypto exchanges needed! Supported: India (UPI), Philippines, Nigeria, US, UK, EU, and more."

Legacy Fiat Solutions (For Non-Supported Countries)

For countries not yet supported by Unetwork bank withdrawals:

Target demographics (students, gig workers in emerging markets) often: - Lack crypto exchange accounts - Face high withdrawal fees - Encounter KYC friction - Prefer local currency

Impact: Conversion rates may be lower than projected; churn may be higher post-first-withdrawal.

Manual Fiat Service (Non-Supported Countries Only)

Market	Priority	Payment Solution	Integration Method
India	1	UPI (PayTM, GPay, PhonePe)	Partner with local crypto-to-fiat service
Philippines	1	GCash, Maya	Direct partnership or Coins.ph
Nigeria	1	Chipper Cash, Flutterwave	Local P2P network
Indonesia	2	OVO, DANA, GoPay	Local exchange partnership
Kenya	2	M-Pesa	BitPesa/AZA Finance
Brazil	2	Pix	Mercado Bitcoin

Implementation Options

Option A: Manual Concierge Service (Phase 1)

MANUAL FIAT CONVERSION SERVICE

Process:

- 1. User requests fiat withdrawal in Discord
- 2. You receive their crypto from Unetwork
- 3. You convert to fiat via local exchange
- 4. You send fiat to user's local wallet

Fee Structure:

- * 5-8% conversion fee (covers exchange fees + your margin)
- * Minimum withdrawal: \$10
- * Processing time: 24-48 hours

Benefits:

- * Competitive moat (competitors don't offer this)
- * Higher user satisfaction
- * Additional revenue stream

Risks:

- * Manual labor intensive
- * Exchange rate fluctuation risk
- * Requires capital float

Option B: Partner Integration (Phase 2+)

Partner with existing crypto-to-fiat services:

Partner Type	Examples	Pros	Cons
P2P Networks	Paxful, LocalBitcoins	Wide coverage	Higher fees
Regional Exchanges	Coins.ph, Luno	Lower fees	Limited regions
Fintech APIs	Chipper, Flutterwave	Automated	Technical integration

Messaging for Fiat Service

Website/Discord: > "We know crypto withdrawals can be complicated. That's why we offer fiat conversion for users in India, Philippines, and Nigeria. Withdraw directly to your GCash, UPI, or mobile money – no exchange account needed."
FAQ Addition: > **Q: Can I withdraw in my local currency?** > A: Yes! We offer fiat conversion for select countries. Current options: > - India: UPI (PayTM, GPay) > - Philippines: GCash, Maya > - Nigeria: Mobile money > Fee: 5-8%. Processing: 24-48 hours.

6. AI Flier Creation Tools

Recommended AI Design Tools

Tool	Best For	Cost	Skill Level
Canva AI	All-purpose design, templates	\$13/mo (Pro)	Beginner
Adobe Firefly	Professional graphics	\$5/mo (with CC)	Intermediate
Midjourney	Custom illustrations	\$10/mo	Intermediate
Microsoft Designer	Quick social graphics	Free	Beginner
Recraft AI	Vector graphics, icons	Free tier	Beginner
Figma AI	Web mockups, prototypes	Free tier	Intermediate

Canva AI Workflow (Recommended)

CANVA AI FLIER WORKFLOW

- START

AI Prompt Templates for Fliers

Hero Image Generation (Midjourney/Firefly)

Prompt: "Modern smartphone floating with glowing digital particles, dark blue background, cyan and purple gradient lighting, passive income concept, clean minimal style, no text, product photography style --ar 4:5 --v 6"

Headline Generation (ChatGPT/Claude)

Prompt: "Write 10 headline variations for a flier advertising a phone app that earns users \$4-30/month passively. Target audience: students and gig workers in emerging markets. Constraints:

- Maximum 8 words
- Focus on benefit, not features
- Avoid words: free, easy, quick
- Include urgency or curiosity element"

Body Copy Generation

Prompt: "Write 4 bullet points (max 10 words each) for a flier:
- Product: Phone app that earns passive income
- Price: \$1.99/month
- Earnings: \$4-30/month (average \$5-9/month)
- USP: No skills needed, runs in background
- Tone: Direct, honest, not salesy"

Localization with AI

Language	AI Tool	Prompt Modifier
Spanish	ChatGPT/Claude	"Translate to Latin American Spanish, casual tone"
Portuguese	ChatGPT/Claude	"Translate to Brazilian Portuguese"
Hindi	ChatGPT/Claude	"Translate to Hindi, use Hinglish for tech terms"
Arabic	ChatGPT/Claude	"Translate to Modern Standard Arabic"
Bahasa Indonesia	ChatGPT/Claude	"Translate to Bahasa Indonesia, formal"

QR Code Integration

Tool	Features	Cost
QR Code Generator (qr-code-generator.com)	Custom colors, logo embed	Free
Canva QR	Built-in, matches design	Included in Pro
Flowcode	Analytics, dynamic links	Free tier

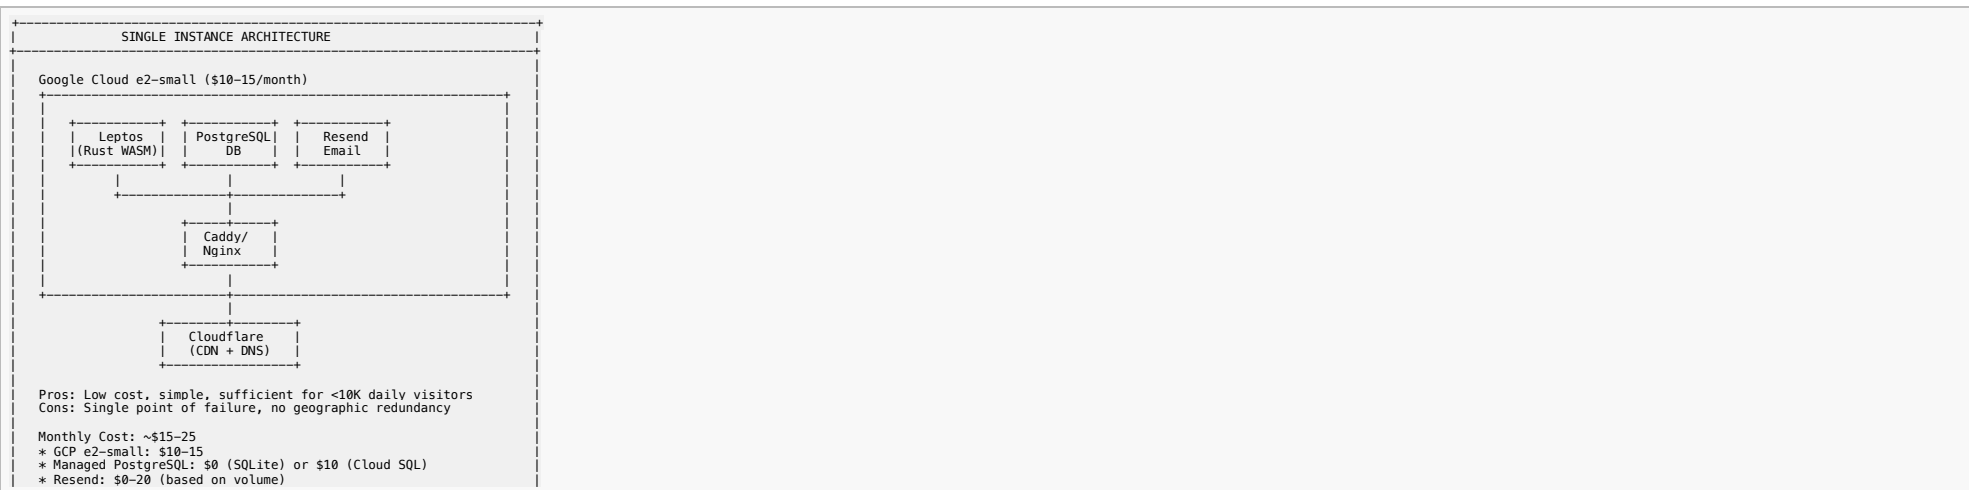

Best Practice: Use UTM parameters in QR links for tracking:

https://yoursite.com/join?utm_source=flier&utm_medium=print&utm_campaign=india_launch

7. Business Automation & Infrastructure

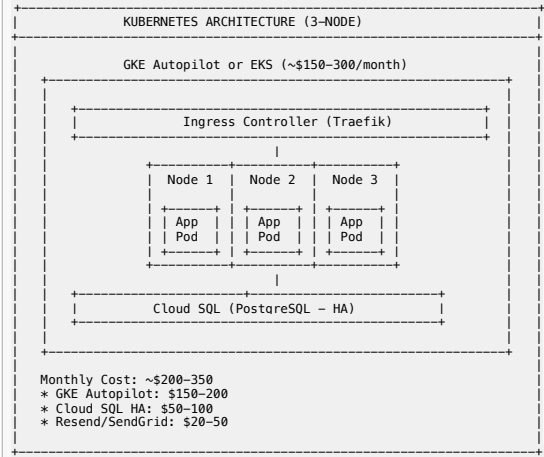

Website Deployment Options

Option A: Single Instance (Cost-Optimized)

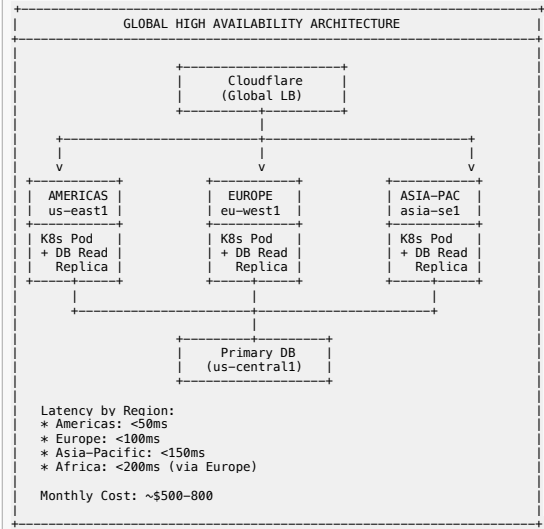

* Cloudflare: \$0 (free tier)

Option B: Kubernetes Cluster (Production-Grade)

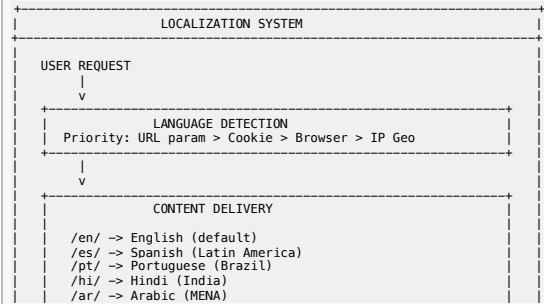

High Availability (Multi-Region)

Localization Implementation

Architecture for Multi-Language Support

Language Mapping by Country

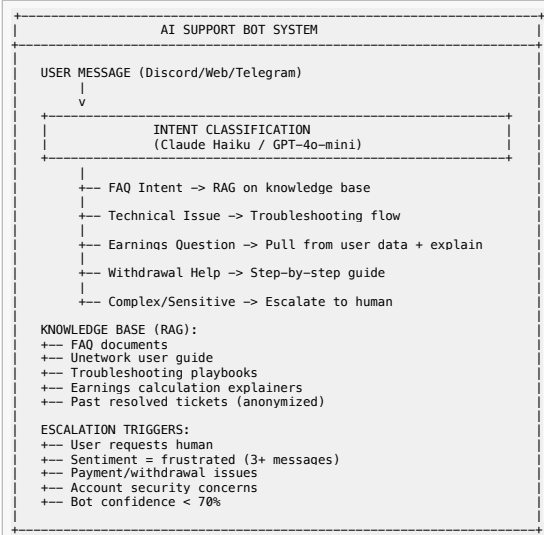

Country	Primary Language	Code	Fallback
India	English / Hindi	en/hi	English
Mexico	Spanish	es-MX	es
Brazil	Portuguese	pt-BR	pt
UAE/Egypt/Tunisia	Arabic	ar	English
Indonesia	Bahasa Indonesia	id	English
Philippines	English / Tagalog	en/tl	English
Nigeria	English / Pidgin	en	English
Kenya	English / Swahili	en/sw	English
Vietnam	Vietnamese	vi	English
Thailand	Thai	th	English

Implementation Options

Approach	Complexity	Best For
i18n Library (leptos-i18n, fluent-rs)	Medium	Rust/Leptos apps
Headless CMS (Contentful, Sanity)	Low	No-code translation mgmt
Static JSON files	Low	Simple sites
AI Translation (DeepL API)	Low	Auto-translation with review

AI Support Bot (24/7)

Architecture

Bot Implementation Options

Platform	Best For	Cost	Setup Complexity
Intercom Fin	Website chat	\$29/seat + AI usage	Low
Tidio AI	Website + email	\$29/mo	Low
CustomGPT	Custom trained bot	\$49/mo	Medium
Botpress	Multi-channel, self-hosted	Free (self-hosted)	High
Discord + OpenAI API	Discord-native	API costs only	Medium

Sample Bot Training Data

```
{
  "intents": [
    {
      "intent": "earnings_question",
      "examples": [
        "How much will I earn?",
        "What are the earnings like?",
        "How much money can I make?",
        "Is it worth it?"
      ],
    },
  ],
}
```

```
    "response": "Earnings range from $4-30/month. Average users earn $5-9/month with 85%+ uptime, while top performers reach $20-30/month. Your earnings depend on: (1) device uptime, (2) enabled tasks, (3) network activity in your region. Check our #earnings-pr",
    {
      "intent": "withdrawal_help",
      "examples": [
        "How do I withdraw?",
        "How to get my money?",
        "Withdrawal process?"
      ],
      "response": "To withdraw: (1) Open app -> Wallet tab, (2) Click 'Withdraw', (3) Choose method (bank or crypto), (4) Enter amount (min $5), (5) Confirm. Processing: 1-3 business days. Need help? Post in #support!"
    }
  ]
}
```

Infrastructure Decision Matrix

Factor	Single Instance	K8s (3-node)	Multi-Region HA
Monthly Cost	\$15-25	\$200-350	\$500-800
Max Users	~5,000	~50,000	500,000+
Uptime SLA	99%	99.5%	99.9%
Setup Time	1-2 hours	1-2 days	1 week
Maintenance	Low	Medium	High
Recommended For	Launch, MVP	Growth phase	Scale phase

Recommended Migration Path

Month 1-6:	Single Instance (GCP e2-small) +--- Cost: \$15-25/month +--- Focus: Prove model, iterate fast
Month 6-12:	K8s 3-node (GKE Autopilot) +--- Cost: \$200-350/month +--- Trigger: >1,000 active licenses
Month 12+:	Multi-Region HA +--- Cost: \$500-800/month +--- Trigger: >5,000 active licenses

Revenue Split Economics

Split Rate Options & Impact

Understanding how different split rates affect your revenue is critical for pricing strategy and competitive positioning.

SPLIT RATE ECONOMICS OVERVIEW			
FORMULA: Net Revenue = (User Earnings x Your %) - \$1.99 subscription			
SPLIT OPTIONS:			
Split	User Gets	You Get	Strategy
50:50	50%	50%	Maximum operator margin
52:48	52%	48%	Balanced approach
55:45	55%	45%	User incentive focus
60:40	60%	40%	High user attraction

Net Revenue Per License by Earnings Scenario

The new 8-tier earnings system reflects real-world performance ranges:

NET REVENUE PER LICENSE (After \$1.99 Subscription)					
FORMULA: Net = (Device Earnings x Operator %) - \$1.99					
Earnings	50:50	52:48	55:45	60:40	Tier
\$4/mo	\$0.01	-\$0.07	-\$0.19	-\$0.39	Poor
\$5/mo	\$0.51	\$0.41	\$0.26	\$0.01	Average
\$6/mo	\$1.01	\$0.89	\$0.71	\$0.41	Acceptable
\$9/mo	\$2.51	\$2.33	\$2.06	\$1.61	OK
\$12/mo	\$4.01	\$3.77	\$3.41	\$2.81	Good
\$20/mo	\$8.01	\$7.61	\$7.01	\$6.01	Very Good
\$25/mo	\$10.51	\$10.01	\$9.26	\$8.01	Excellent
\$30/mo	\$13.01	\$12.41	\$11.51	\$10.01	Champion
CALCULATION EXAMPLES:					
* \$9/mo at 50:50 -> \$9 x 50% = \$4.50 - \$1.99 = \$2.51 net					
* \$20/mo at 55:45 -> \$20 x 45% = \$9.00 - \$1.99 = \$7.01 net					
* \$30/mo at 60:40 -> \$30 x 40% = \$12.00 - \$1.99 = \$10.01 net					
BREAK-EVEN EARNINGS (Where Net = \$0):					
50:50: \$3.98/mo 52:48: \$4.15/mo 55:45: \$4.42/mo 60:40: \$4.98/mo					

Monthly Revenue Projections by License Count

At \$4/mo - Poor Scenario

\$4/MONTH EARNINGS - MONTHLY NET REVENUE					
Net/License: 50:50=\$0.01 52:48=-\$0.07 55:45=-\$0.19 60:40=-\$0.39					
Licenses	50:50	52:48	55:45	60:40	
10	\$0.10	-\$0.70	-\$1.90	-\$3.90	
50	\$0.50	-\$3.50	-\$9.50	-\$19.50	
100	\$1.00	-\$7.00	-\$19.00	-\$39.00	
200	\$2.00	-\$14.00	-\$38.00	-\$78.00	
350	\$3.50	-\$24.50	-\$66.50	-\$136.50	
500	\$5.00	-\$35.00	-\$95.00	-\$195.00	
1,000	\$10.00	-\$70.00	-\$190.00	-\$390.00	
2,200	\$22.00	-\$154.00	-\$418.00	-\$858.00	

At \$5/mo - Average Scenario

\$5/MONTH EARNINGS - MONTHLY NET REVENUE					
Net/License: 50:50=\$0.51 52:48=\$0.41 55:45=\$0.26 60:40=\$0.01					
Licenses	50:50	52:48	55:45	60:40	
10	\$5.10	\$4.10	\$2.60	\$0.10	
50	\$25.50	\$20.50	\$13.00	\$0.50	
100	\$51.00	\$41.00	\$26.00	\$1.00

Annual Revenue Projections (Full Capacity: 2,200 Licenses)

ANNUAL NET REVENUE AT FULL CAPACITY (2,200 LICENSES)						
Tier	Earnings	50:50	52:48	55:45	60:40	
Poor	\$4/mo	\$264	-\$1,848	-\$5,016	-\$10,296	
Average	\$5/mo	\$13,464	\$10,824	\$6,864	\$264	
Acceptable	\$6/mo	\$26,664	\$23,496	\$18,744	\$10,824	
OK	\$9/mo	\$66,264	\$61,512	\$54,384	\$42,504	
Good	\$12/mo	\$105,864	\$99,528	\$90,024	\$74,184	
Very Good	\$20/mo	\$211,464	\$200,904	\$185,064	\$158,664	
Excellent	\$25/mo	\$277,464	\$264,264	\$244,464	\$211,464	
Champion	\$30/mo	\$343,464	\$327,624	\$303,864	\$264,264	
Note: These projections assume 100% utilization and 0% churn. Realistic Year 1 targets should assume 50-70% of these figures.						
REALISTIC YEAR 1 ESTIMATES (at 60% of full capacity):						
Average	\$5/mo	\$8,078	\$6,494	\$4,118	\$158	
OK	\$9/mo	\$39,758	\$36,907	\$32,630	\$25,502	
Good	\$12/mo	\$63,518	\$59,717	\$54,014	\$44,510	
Very Good	\$20/mo	\$126,878	\$120,542	\$111,038	\$95,198	
Excellent	\$25/mo	\$166,478	\$158,558	\$146,678	\$126,878	
Champion	\$30/mo	\$206,078	\$196,574	\$182,318	\$158,558	

Split Strategy Decision Matrix

SPLIT RATE SELECTION GUIDE	

MARKET CONDITIONS	RECOMMENDED SPLIT	RATIONALE
Heavy UNO competition	55:45 or 60:40	Attract users with higher share
Low/no competition	50:50	Maximize margins
Poor earnings (\$4/mo)	50:50 ONLY	Only marginally profitable split
Average earnings (\$5/mo)	50:50 to 55:45	All profitable except 60:40 marginal
Acceptable earnings (\$6/mo)	50:50 to 60:40	All splits profitable
OK earnings (\$9/mo)	50:50 to 60:40	All splits profitable
Good earnings (\$12/mo)	50:50 to 60:40	Growth focus
Very Good+ earnings (\$20+/mo)	50:50 to 60:40	Max user attraction
High churn (>15%/mo)	55:45 or 60:40	Improve retention
Strong retention (<8%/mo)	50:50	Optimize revenue
Launch phase	55:45	Build user base
Established (500+ users)	50:50 or 52:48	Balance growth
PROFITABILITY BY SPLIT (Break-Even Device Earnings):		
50:50 split	\$3.98/mo+	Maximum operator margin
52:48 split	\$4.15/mo+	Balanced approach
55:45 split	\$4.42/mo+	User incentive focus
60:40 split	\$4.98/mo+	High user attraction
EARNINGS TIER RECOMMENDATIONS:		
Poor (\$4/mo)	50:50	Only marginally profitable
Average (\$5/mo)	50:50 to 55:45	All profitable
Acceptable (\$6/mo)	50:50 to 60:40	All profitable
OK (\$9/mo)	50:50 to 60:40	All profitable
Good (\$12/mo)	50:50 to 60:40	Strong returns
Very Good (\$20/mo)	50:50 to 60:40	Growth priority
Excellent (\$25/mo)	50:50 to 60:40	Max user benefit
Champion (\$30/mo)	50:50 to 60:40	Premium offering

Website Earnings Calculator Implementation

When building the earnings calculator for your website, include these split scenarios:

```
// Earnings Calculator Logic
function calculateUserEarnings(avgMonthlyEarnings, splitRate) {
  const splits = {
    '50:50': 0.50,
    '52:48': 0.52,
    '55:45': 0.55,
    '60:40': 0.60
  };

  const userShare = avgMonthlyEarnings * splits[splitRate];
  return userShare;
}

function calculateOperatorNet(avgMonthlyEarnings, splitRate, licenseCount) {
  const splits = {
    '50:50': 0.50,
    '52:48': 0.48,
    '55:45': 0.45,
    '60:40': 0.40
  };

  const subscriptionCost = 1.99;
  const operatorShare = avgMonthlyEarnings * splits[splitRate];
  const netPerLicense = operatorShare - subscriptionCost;

  return netPerLicense * licenseCount;
}

// Break-even earnings by split rate
const breakEvenEarnings = {
  '50:50': 3.98, // $1.99 / 0.50
  '52:48': 4.15, // $1.99 / 0.48
  '55:45': 4.42, // $1.99 / 0.45
  '60:40': 4.98 // $1.99 / 0.40
};
};
```

Cost Summary

Infrastructure Costs by Phase

Phase	Monthly Infrastructure	Monthly AI/Tools	Total
MVP (Month 1-3)	\$15-25	\$0-50	\$15-75
Growth (Month 4-6)	\$25-50	\$100-150	\$125-200
Scale (Month 7-12)	\$200-350	\$200-400	\$400-750
Enterprise (Month 12+)	\$500-800	\$300-500	\$800-1,300

Key Technical Decisions

1. **Start with Single Instance** - GCP e2-small is sufficient for MVP
2. **Use Rust/Leptos** - Performance benefits, low hosting costs
3. **Cloudflare Free Tier** - CDN and DDoS protection at no cost
4. **AI Tools Tier 1** - Start free, upgrade as revenue grows
5. **Manual Fiat** - Only for non-bank-withdrawal countries
6. **Discord-first Support** - Community-driven, low cost
