Getting Started

What is Unetwork?

Unetwork is a mobile app that lets you earn passive income by contributing your phone’s connectivity to help telecom companies verify their network quality. Your phone runs small connectivity tests in the background, and you get paid for your contribution.

How Much Can You Earn?

Device Type	Monthly Earnings (Your Share)
WiFi-only device (tablet, old phone without SIM)	\$2.00-\$5.40/month
Phone with active SIM (all tasks enabled)	\$4.50-\$18.00/month
Multiple devices	Multiply your earnings!

Earnings shown across 50:50 to 60:40 splits. Your actual earnings depend on your split rate.

Why the \$1.99/Month Fee?

The fee covers operational costs and ensures committed users. You earn \$2.00-\$18.00/month (depending on performance and split), making it profitable from day one. Earnings are split between you and the operator based on the tier you select.

Revenue Split Options

Your earnings depend on the split rate offered by your UNO (Unetwork Node Operator). Here are the common split options:

EARNINGS BY SPLIT RATE			
Split Rate	You Get	Operator Gets	Your Monthly Earnings
50:50	50%	50%	Good earnings
52:48	52%	48%	Better!
55:45	55%	45%	Even better!
60:40	60%	40%	Best (you keep most!)
TIP: All our operators offer fair 50:50 or higher splits!			
Look for 60:40 splits for maximum earnings!			

Your Monthly Earnings by Split Rate

Here’s what YOU take home at different earnings levels and split rates:

If Your Device Generates \$4/month (Poor)

YOUR MONTHLY EARNINGS AT \$4/MONTH GENERATION			
Split Rate	Your Share	You Keep	Net After \$1.99 Sub
50:50	\$2.00	50%	You pay \$1.99, keep \$2.00
52:48	\$2.08	52%	You pay \$1.99, keep \$2.08
55:45	\$2.20	55%	You pay \$1.99, keep \$2.20
60:40	\$2.40	60%	You pay \$1.99, keep \$2.40
Note: The \$1.99 subscription is paid by the operator, not you! The amounts above are what YOU keep in your wallet.			

If Your Device Generates \$9/month (OK Performance)

YOUR MONTHLY EARNINGS AT \$9/MONTH GENERATION			
Split Rate	Your Share	You Keep	Net After \$1.99 Sub
50:50	\$4.50	50%	You pay \$1.99, keep \$4.50
52:48	\$4.68	52%	You pay \$1.99, keep \$4.68
55:45	\$4.95	55%	You pay \$1.99, keep \$4.95
60:40	\$5.40	60%	You pay \$1.99, keep \$5.40
Note: The \$1.99 subscription is paid by the operator, not you! The amounts above are what YOU keep in your wallet.			

If Your Device Generates \$12/month (Good Performance)

YOUR MONTHLY EARNINGS AT \$12/MONTH GENERATION			
Split Rate	Your Share	You Keep	Multiple Devices
50:50	\$6.00	50%	3 devices = \$18.00/mo
52:48	\$6.24	52%	3 devices = \$18.72/mo
55:45	\$6.60	55%	3 devices = \$19.80/mo
60:40	\$7.20	60%	3 devices = \$21.60/mo

If Your Device Generates \$20/month (Very Good Performance)

YOUR MONTHLY EARNINGS AT \$20/MONTH GENERATION			
Split Rate	Your Share	You Keep	Multiple Devices
50:50	\$10.00	50%	3 devices = \$30.00/mo
52:48	\$10.40	52%	3 devices = \$31.20/mo
55:45	\$11.00	55%	3 devices = \$33.00/mo
60:40	\$12.00	60%	3 devices = \$36.00/mo

If Your Device Generates \$25/month (Excellent Performance)

YOUR MONTHLY EARNINGS AT \$25/MONTH GENERATION			
Split Rate	Your Share	You Keep	Multiple Devices
50:50	\$12.50	50%	3 devices = \$37.50/mo
52:48	\$13.00	52%	3 devices = \$39.00/mo
55:45	\$13.75	55%	3 devices = \$41.25/mo
60:40	\$15.00	60%	3 devices = \$45.00/mo

If Your Device Generates \$30/month (Champion Performance)

YOUR MONTHLY EARNINGS AT \$30/MONTH GENERATION			
Split Rate	Your Share	You Keep	Multiple Devices
50:50	\$15.00	50%	3 devices = \$45.00/mo
52:48	\$15.60	52%	3 devices = \$46.80/mo
55:45	\$16.50	55%	3 devices = \$49.50/mo
60:40	\$18.00	60%	3 devices = \$54.00/mo

Earnings Summary Table

QUICK EARNINGS REFERENCE					
YOUR MONTHLY EARNINGS BY SPLIT					
Device Earnings	50:50 You Get	52:48 You Get	55:45 You Get	60:40 You Get	
\$4/mo	\$2.00	\$2.08	\$2.20	\$2.40	Poor
\$5/mo	\$2.50	\$2.60	\$2.75	\$3.00	Average
\$6/mo	\$3.00	\$3.12	\$3.30	\$3.60	Acceptable
\$9/mo	\$4.50	\$4.68	\$4.95	\$5.40	OK
\$12/mo	\$6.00	\$6.24	\$6.60	\$7.20	Good
\$20/mo	\$10.00	\$10.40	\$11.00	\$12.00	Very Good
\$25/mo	\$12.50	\$13.00	\$13.75	\$15.00	Excellent
\$30/mo	\$15.00	\$15.60	\$16.50	\$18.00	Champion
MAXIMIZE YOUR EARNINGS:					
1. Look for operators offering 55:45 or 60:40 splits for best earnings					
2. Keep your device running 24/7 (higher uptime = higher earnings)					
3. Enable all available tasks					
4. Use multiple devices to multiply your income					

Key Benefits

- Only \$1.99/month - Pays for itself in days
- Works automatically in background
- Withdraw to crypto anytime (BTC, ETH, USDC)
- No personal data collected
- No skills needed - just install and earn

Tasks Deep Dive

Available Task Types Summary

Task	Status	Type	Description
Connection to Unetwork	Always Active	Passive	Base connectivity for all tasks
Caller ID Testing (CLI)	Active	Active	Report CLI on incoming test calls
SMS Testing	Coming Soon	Active	Report content of test SMS messages
Connectivity Verification	Available	Passive	Signal strength verification
Entropy Generation	Coming Soon	Passive	Generate random data from sensors

1. Connection to Unetwork (Telemetry)

STATUS: Always Active
TYPE: PASSIVE

DESCRIPTION:
Keeps this device continuously connected so it can participate in ongoing Unetwork tasks.

HOW TO OPT-IN:
- Automatically enabled when app is installed
- Cannot be disabled (required for all earnings)
- Shows "Always Active" badge in app

USER EFFORT:
- PASSIVE - No work required
- Just keep app running and connected to internet
- Works in background while phone is locked

EARNINGS DETAILS:
- Base earnings layer (~40-50% of total potential)
- Earnings based on uptime percentage
- Higher uptime = higher rewards
- WiFi connection preferred for stability

TECHNICAL:
- Data usage: ~50-100MB/month
- Battery impact: 3-5% daily
- Runs silently in background

2. Caller ID Testing (CLI)

STATUS: Active
TYPE: ACTIVE

DESCRIPTION:
Receive incentives for reporting the CLI (Caller Line Identification) received on incoming test calls.

HOW TO OPT-IN:
- Navigate to Tasks screen in app
- Tap on "Caller ID Testing"
- Grant phone/call permissions when prompted
- Toggle task to ON

USER EFFORT:
- ACTIVE - Some interaction required
- May receive automated test calls
- Need to report/confirm CLI information shown
- Calls are brief and for verification only

EARNINGS DETAILS:

- Significant earnings boost (+25-40% over base)
- Paid per successful CLI verification
- More test calls = more earning opportunities
- Requires phone capability (not WiFi-only tablets)

TECHNICAL:

- Requires: Phone capability + call permissions
- Does NOT access personal call history
- Only processes designated test calls

3. SMS Testing

STATUS: Coming Soon
TYPE: ACTIVE

DESCRIPTION:

Receive incentives for reporting the content of incoming test SMS messages.

HOW TO OPT-IN (when available):

- Navigate to Tasks screen in app
- Tap on "SMS Testing"
- Grant SMS permissions when prompted
- Toggle task to ON

USER EFFORT:

- ACTIVE - Some interaction required
- Will receive test SMS messages
- Need to confirm/report SMS content received
- Verifies SMS delivery and content integrity

EARNINGS DETAILS:

- Additional earnings on top of base tasks
- Paid per successful SMS verification
- Requires active SIM card with SMS capability
- Earnings TBD when feature launches

TECHNICAL:

- Requires: SMS capability + SMS permissions
- Only processes designated test messages
- Does NOT access personal SMS history

4. Connectivity Verification

STATUS: Available
TYPE: PASSIVE

DESCRIPTION:

Check signal strength in your area. Contributes to network coverage mapping and quality verification.

HOW TO OPT-IN:

- Navigate to Tasks screen in app
- Tap on "Connectivity Verification"
- Grant location permissions when prompted
- Toggle task to ON

USER EFFORT:

- PASSIVE - No work required
- Runs automatically in background
- Periodically checks signal strength
- Reports network quality metrics

EARNINGS DETAILS:

- Additional earnings layer
- Based on data contribution value
- More valuable in areas with less coverage data

- Complements base telemetry earnings
- TECHNICAL:
- Requires: Location permissions
 - Uses approximate location (not precise GPS)
 - Small additional data usage for reporting

5. Entropy Generation

STATUS: Coming Soon
TYPE: PASSIVE

DESCRIPTION:
Your phone's sensors generate truly random data that powers critical systems worldwide. Be rewarded to contribute entropy in the background.

HOW TO OPT-IN (when available):

- Navigate to Tasks screen in app
- Tap on "Entropy Generation"
- Grant sensor permissions when prompted
- Toggle task to ON

USER EFFORT:

- PASSIVE - No work required
- Runs completely in background
- Uses phone sensors (accelerometer, gyroscope, etc.)
- No user interaction needed

EARNINGS DETAILS:

- Additional passive income stream
- Valuable for cryptographic applications
- Earnings TBD when feature launches
- Expected to complement other passive tasks

TECHNICAL:

- Uses device sensors to generate randomness
- Minimal battery impact
- Low data usage
- Powers security systems, lotteries, simulations

Passive vs Active Tasks Comparison

Task	Type	User Effort	Best For
Connection to Unetwork	PASSIVE	None - just keep app running	Everyone
Caller ID Testing	ACTIVE	Report incoming test call info	Users with phone service
SMS Testing	ACTIVE	Report incoming test SMS content	Users with active SIM
Connectivity Verification	PASSIVE	None - automatic signal checks	Everyone
Entropy Generation	PASSIVE	None - uses phone sensors	Everyone

WiFi-Only vs Phone Tasks

WiFi-Only Device (tablet, old phone without SIM)

Available Tasks: - Connection to Unetwork (Telemetry) - Connectivity Verification - Entropy Generation (when available)

Not Available: - Caller ID Testing (needs phone capability) - SMS Testing (needs active SIM)

Expected Earnings: ~\$4-9/month total device earnings

Your share at different splits: | Split | \$4/mo device | \$6/mo device | \$9/mo device | |——-|———-|———-|———-| 50:50 | \$2.00 | \$3.00 | \$4.50 | | 52:48 | \$2.08 | \$3.12 | \$4.68 | | 55:45 | \$2.20 | \$3.30 | \$4.95 | | 60:40 | \$2.40 | \$3.60 | \$5.40 |

Phone with Active SIM

Available Tasks: - Connection to Unetwork (Telemetry) - Connectivity Verification - Entropy Generation (when available) - Caller ID Testing - SMS Testing (when available)

Expected Earnings: ~\$9-30/month total device earnings

Your share at different splits: | Split | \$9/mo device | \$12/mo device | \$20/mo device | \$25/mo device | \$30/mo device | |---|---|---|---|---|---| | 50:50 | \$4.50 | \$6.00 | \$10.00 | \$12.50 | \$15.00 | | 52:48 | \$4.68 | \$6.24 | \$10.40 | \$13.00 | \$15.60 | | 55:45 | \$4.95 | \$6.60 | \$11.00 | \$13.75 | \$16.50 | | 60:40 | \$5.40 | \$7.20 | \$12.00 | \$15.00 | \$18.00 |

Technical Requirements

Minimum Device Requirements

Requirement	iOS	Android
OS Version	iOS 14+	Android 10+
RAM	2GB+	2GB+
Storage	100MB free	100MB free
Battery	Healthy (>80% capacity)	Healthy
Internet	WiFi or 4G/5G	WiFi or 4G/5G

Required Permissions

Permission	Why Needed	What It Does
Background App Refresh	Keep earning while phone is locked	Allows the app to work while you sleep
Location (Approximate)	Network coverage mapping	Only approximate location, never precise GPS
Network Access	Connectivity testing	Required to perform network tests
Notifications	Earnings alerts	Get notified when you earn

Data Usage & Battery Impact

Data Usage Estimates

Task Configuration	Monthly Data Usage	Notes
Connection Only	50-100MB	Minimal heartbeat traffic
+ Caller ID	100-150MB	Additional verification packets
+ Connectivity Tests	500MB-1GB	Periodic speed tests

Tip: Most users on unlimited data will not notice any difference. For limited plans, Connection Only mode uses less data than watching a single YouTube video per month.

Battery Impact

Task Level	Daily Impact	Monthly Impact
Connection Only	3-5%	~100% cycle
All Tasks Active	5-8%	~150% cycle

Tip: Keep your phone plugged in overnight for best results. The app is optimized for minimal battery drain.

Frequently Asked Questions

Getting Started

Q: How much will I actually earn? > Earnings depend on your device type and split rate. Here is what you can expect: > - **WiFi-only devices**: \$2.00-\$5.40/month (your share at various splits) > - **Phone with SIM (typical)**: \$4.50-\$7.20/month (OK to Good performance) > - **Phone with SIM (excellent)**: \$12.50-\$18.00/month (Excellent to Champion performance) > > Multiple devices = multiple earnings!

Q: Why the \$1.99/month fee? > The fee is paid by the operator (not you!) and covers their costs. You earn \$2.00-\$18.00/month based on your split rate and device performance. Common splits range from 50:50 to 60:40 (you/operator). Higher first number = more for you!

Q: How do I withdraw my earnings? > Withdraw to BTC, ETH, USDC, or other crypto. Minimum withdrawal is \$5.

Technical Questions

Q: Can I use an old phone that's not my daily driver? > Yes! Any smartphone meeting minimum requirements works. Old phones are perfect - just keep them plugged in and connected to WiFi.

Q: Does it work on tablets? > Partially. Passive tasks (Connection, Connectivity Verification, Entropy) work on WiFi-only tablets. However, Caller ID Testing requires phone capability and SMS Testing requires an active SIM card.

Q: Will it slow down my phone? > No. The app uses minimal CPU (<1%) and runs efficiently in background.

Q: What if I have limited data? > Enable Connection Only mode. Uses ~50-100MB/month - less than watching one Netflix episode.

Q: Can I turn off tasks temporarily? > Yes. Task participation is configurable in app settings (except Connection to Unetwork which is always required).

Earnings Questions

Q: What split rate should I look for? > Higher first number = more for you! Split rates range from 50:50 to 60:40. Here is a quick guide: > - **60:40** - Best for users (you keep 60%) > - **55:45** - Great deal (you keep 55%) > - **52:48** - Good value (you keep 52%) > - **50:50** - Fair split (you keep 50%) > > At \$9/mo device earnings: 60:40 gives you \$5.40, 55:45 gives you \$4.95, 52:48 gives you \$4.68, and 50:50 gives you \$4.50.

Q: How much do I actually keep at each split rate? > Here is a comparison across all performance tiers: > > | Device Earnings | 50:50 | 52:48 | 55:45 | 60:40 | Tier | > | ————-|——-|——-|——-|——-|——-| > | \$4/mo | \$2.00 | \$2.08 | \$2.20 | \$2.40 | Poor | > | \$5/mo | \$2.50 | \$2.60 | \$2.75 | \$3.00 | Average | > | \$6/mo | \$3.00 | \$3.12 | \$3.30 | \$3.60 | Acceptable | > | \$9/mo | \$4.50 | \$4.68 | \$4.95 | \$5.40 | OK | > | \$12/mo | \$6.00 | \$6.24 | \$6.60 | \$7.20 | Good | > | \$20/mo | \$10.00 | \$10.40 | \$11.00 | \$12.00 | Very Good | > | \$25/mo | \$12.50 | \$13.00 | \$13.75 | \$15.00 | Excellent | > | \$30/mo | \$15.00 | \$15.60 | \$16.50 | \$18.00 | Champion | > > The \$1.99 subscription is paid by the operator, not you!

Q: How do earnings vary based on which tasks I enable? > Your earnings depend on which tasks you subscribe to: > - **WiFi/Passive tasks only** (Connection + Connectivity): ~\$4-9/month device earnings > - Your share: \$2.00-\$5.40/month (depending on split) > - **WiFi + Phone tasks** (add Caller ID): ~\$9-20/month device earnings > - Your share: \$4.50-\$12.00/month (depending on split) > - **All tasks enabled** (add SMS when available): ~\$12-30/month device earnings > - Your share: \$6.00-\$18.00/month (depending on split) > > Phone-based tasks (CLI, SMS) pay more because they require active SIM and user participation.

Q: What is the difference between Passive and Active tasks? > - **Passive tasks** (Connection, Connectivity, Entropy): Run automatically in background. No user action needed - just keep the app running and connected to internet. > - **Active tasks** (Caller ID, SMS): Require some user interaction - you will receive test calls/messages and need to confirm/report the information received.

Q: Can I earn with just WiFi and no phone service? > Yes! WiFi-only devices can run all passive tasks (Connection, Connectivity Verification, Entropy). Expect ~\$4-9/month device earnings, which translates to \$2.00-\$5.40/month in your pocket (at 50:50 to 60:40 splits). To maximize earnings (\$12.50-\$18.00/month), use a device with active phone/SIM service for CLI and SMS tasks.

Q: What are the different performance tiers? > Device performance varies based on uptime, location, and enabled tasks: > > | Tier | Device Earnings | Your Share (50:50) | Your Share (60:40) | Description | > | —-|———-|———-|———-|———-| > | Poor | \$4/mo | \$2.00 | \$2.40 | Minimal uptime or WiFi-only | > | Average | \$5/mo | \$2.50 | \$3.00 | Basic usage | > | Acceptable | \$6/mo | \$3.00 | \$3.60 | Moderate participation | > | OK | \$9/mo | \$4.50 | \$5.40 | Good uptime, some tasks | > | Good | \$12/mo | \$6.00 | \$7.20 | High uptime, phone tasks | > | Very Good | \$20/mo | \$10.00 | \$12.00 | Excellent participation | > | Excellent | \$25/mo | \$12.50 | \$15.00 | Power user | > | Champion | \$30/mo | \$15.00 | \$18.00 | Top performer |

Privacy & Security

Q: Will it drain my battery? > No. Optimized for less than 5% battery impact. Most users do not notice any difference.

Q: What does the app actually do? > It helps telecom companies verify their network quality. Your phone runs small connectivity tests in the background.

Q: Is my data safe? > Yes. No personal data is collected or transmitted. Only anonymized network telemetry.

Quick-Start Guide

Step 1: Download the App

- Go to App Store or Play Store
- Search "Unetwork"
- Download and install (\$1.99/mo)

Step 2: Create Account

- Open app and tap "Get Started"
- Sign up with email or connect wallet
- Use referral code if you have one

Step 3: Activate License

- Go to "Licenses" in the app
- Tap "Claim Free License"

- Allow background permissions when prompted

Step 4: Start Earning!

- Keep app running in background
- Check earnings daily in dashboard
- Withdraw when you reach \$5 minimum

Pro Tips for Maximum Earnings

1. **Keep your phone plugged in** - More uptime = more earnings
2. **Stay connected to WiFi** - Stable connection means consistent earnings
3. **Enable all tasks** - More tasks = higher earning potential
4. **Use old phones** - Turn unused devices into passive income machines
5. **Check the app weekly** - Monitor your earnings and uptime
6. **Aim for Champion tier** - Top performers earn up to \$18.00/month!

Trust & Transparency

Our Commitments to You

Promise	What It Means
No Personal Data Collected	Only anonymized network telemetry - your privacy is protected
Transparent Split Options	Clear split rates (50:50 to 60:40) - we are upfront about shares
4-Hour Support Response	Questions answered quickly via Discord or email
Verified Node Operator	We own and operate real nodes on the Unetwork blockchain

What You Can Expect

- **Monthly Transparency Reports** - We share community earnings data
- **Real Earnings Screenshots** - See actual user results
- **Active Discord Community** - Connect with other earners and get help
- **Clear Communication** - No hidden fees, no surprises

Earnings Transparency

Here is exactly what you can expect to earn based on your device performance:

Performance Tier	Device Earnings	Your Share (50:50 split)	Your Share (60:40 split)
Poor	\$4/month	\$2.00/month	\$2.40/month
Average	\$5/month	\$2.50/month	\$3.00/month
Acceptable	\$6/month	\$3.00/month	\$3.60/month
OK	\$9/month	\$4.50/month	\$5.40/month
Good	\$12/month	\$6.00/month	\$7.20/month
Very Good	\$20/month	\$10.00/month	\$12.00/month
Excellent	\$25/month	\$12.50/month	\$15.00/month
Champion	\$30/month	\$15.00/month	\$18.00/month

Withdrawal Options

Withdraw your earnings to: - Bitcoin (BTC) - Ethereum (ETH) - USDC - Other supported cryptocurrencies

Minimum withdrawal: \$5
