1. 90-Day Action Plan

Overview

This action plan provides week-by-week targets for your first 90 days as a UNO operator with 2,200 licenses across 11 nodes. The plan follows the MVP validation gates approach and incorporates the “you pay \$1.99” subscription model.

Key Assumptions

Parameter	Value
Total Licenses	2,200 (11 nodes x 200)
Subscription Cost	\$1.99/month (you pay)
Split Rate Options	50:50, 52:48, 55:45, 60:40 (User:You)
Default Starting Split	50:50 (User:You) - adjust based on market
Target Market	Philippines (single-country focus)
Marketing Budget	\$500-\$2,000/month
Target Earnings	\$5-9/mo average (see 8-tier projections below)

Earnings Scenario Reference (Before Split - Total Device Earnings)

Scenario	Monthly Earnings	Description
Poor	\$4/mo	Below expectations, monitor closely
Average	\$5/mo	Baseline minimum target
Acceptable	\$6/mo	Meeting basic expectations
OK	\$9/mo	Comfortable operating level
Good	\$12/mo	Solid performance
Very Good	\$20/mo	Strong returns
Excellent	\$25/mo	Outstanding performance
Champion	\$30/mo	Top-tier results

Split Rate Quick Reference

Split	User Gets	You Get	Net @ \$5/mo	Net @ \$9/mo	Net @ \$12/mo	Net @ \$25/mo	Break-even
50:50	50%	50%	\$0.51	\$2.51	\$4.01	\$10.51	\$3.98/mo
52:48	52%	48%	\$0.41	\$2.33	\$3.77	\$10.01	\$4.15/mo
55:45	55%	45%	\$0.26	\$2.06	\$3.41	\$9.26	\$4.42/mo
60:40	60%	40%	\$0.01	\$1.61	\$2.81	\$8.01	\$4.98/mo

Net = (Earnings x Your %) - \$1.99 subscription. Example: \$9/mo at 50:50 = \$9 x 50% - \$1.99 = \$2.51 net

Complete Net Per License Matrix (All 8 Scenarios x 4 Splits)

Earnings	50:50 Net	52:48 Net	55:45 Net	60:40 Net
\$4/mo (Poor)	\$0.01	-\$0.07	-\$0.19	-\$0.39
\$5/mo (Average)	\$0.51	\$0.41	\$0.26	\$0.01
\$6/mo (Acceptable)	\$1.01	\$0.89	\$0.71	\$0.41
\$9/mo (OK)	\$2.51	\$2.33	\$2.06	\$1.61
\$12/mo (Good)	\$4.01	\$3.77	\$3.41	\$2.81
\$20/mo (Very Good)	\$8.01	\$7.61	\$7.01	\$6.01
\$25/mo (Excellent)	\$10.51	\$10.01	\$9.26	\$8.01
\$30/mo (Champion)	\$13.01	\$12.41	\$11.51	\$10.01

Calculation: Net = (Monthly Earnings x Operator %) - \$1.99 subscription

Detailed Revenue Projections by Split Scenario

The following projections show your net revenue at each milestone by earnings scenario and split rate. Net per license = (Device Earnings x Operator %) - \$1.99 subscription cost.

Example Calculation: \$9/mo at 50:50 split = \$9 x 50% = \$4.50, minus \$1.99 = \$2.51 net per license

\$4/MONTH EARNINGS (Poor)

\$4/MONTH – PROJECTED NET REVENUE BY SPLIT

NET PER LICENSE CALCULATION:

50:50 = \$2.00 - \$1.99 = \$0.01
52:48 = \$1.92 - \$1.99 = -\$0.07 (LOSS)
55:45 = \$1.80 - \$1.99 = -\$0.19 (LOSS)

60:40 = \$1.60 - \$1.99 = -\$0.39 (LOSS)

WARNING: \$4/mo earnings = net LOSS at 52:48, 55:45, and 60:40 splits (only 50:50 breaks even)
Must increase earnings above break-even or pause growth

WEEKLY MILESTONE NET REVENUE:

Week	50:50	52:48	55:45	60:40
2	\$0.10	-\$0.70	-\$1.90	-\$3.90
6	\$0.50	-\$3.50	-\$9.50	-\$19.50

KEY INSIGHTS FOR 90-DAY PLANNING:

PROFITABILITY THRESHOLDS:

- 50:50 split: Profitable at \$4/mo+ (break-even at \$3.98/mo)
- 52:48 split: Profitable at \$5/mo+ (break-even at \$4.15/mo)
- 55:45 split: Profitable at \$5/mo+ (break-even at \$4.42/mo)
- 60:40 split: Profitable at \$5/mo+ (break-even at \$4.98/mo)

SCENARIO-BASED STRATEGY:

- At \$4/mo (Poor) with 50:50 split:
Week 13 net = \$3.50/mo -> Barely profitable, monitor closely
- At \$5/mo (Average) with 60:40 split:
Week 13 net = \$3.50/mo -> Barely break-even, consider tighter split
- At \$5/mo (Average) with 50:50 split:
Week 13 net = \$178.50/mo -> Sustainable with solid margins
- At \$9/mo (OK) with 60:40 split:
Week 13 net = \$563.50/mo -> All 4 splits profitable
- At \$12/mo (Good) with 60:40 split:
Week 13 net = \$983.50/mo -> Can offer very generous splits
- At \$30/mo (Champion) with 60:40 split:
Week 13 net = \$3,503.50/mo -> ~\$42,042/year with 350 users

Split Strategy Decision Matrix

SPLIT RATE DECISION GUIDE

EARNINGS-BASED SPLIT RECOMMENDATIONS:

\$4/mo (Poor):

- └ Only 50:50 split is profitable at this level (\$0.01 net)
- └ All other splits (52:48 to 60:40) result in losses
- └ Consider pausing acquisition until earnings improve

\$5/mo (Average):

- └ All splits profitable, but margins vary significantly
- └ Net per license: \$0.51 (50:50) to \$0.01 (60:40)
- └ Recommend 50:50 or 52:48 for best margins

\$6/mo (Acceptable):

- └ All 4 splits profitable with solid margins
- └ Can offer 55:45 or 60:40 to attract users

\$9/mo (OK):

- └ All 4 splits profitable - comfortable operating level
- └ 60:40 yields \$1.61 net (solid); 50:50 yields \$2.51 net (excellent)

\$12/mo (Good):

└ Strong margins at all 4 splits – can be generous └ Even 60:40 yields \$2.81 net per license \$20/mo (Very Good): └ Excellent returns – consider 55:45 or 60:40 to maximize growth └ 60:40 yields \$6.01 net per license \$25/mo (Excellent): └ Can offer very competitive splits to dominate market └ Even 60:40 yields \$8.01 net per license \$30/mo (Champion): └ Top-tier – maximize market share with generous splits └ 60:40 yields \$10.01 net per license	
MARKET CONDITIONS -> RECOMMENDED SPLIT: Heavy competition (many UNOs recruiting): └ Use 55:45 or 60:40 if earnings >= \$9/mo to attract users └ Use 52:48 if earnings \$6–9/mo as compromise Low competition (few UNOs in your market): └ Use 50:50 to maximize returns Low earnings environment (\$4–5/mo): └ MUST use 50:50 to stay profitable └ Avoid 55:45 and 60:40 – thin or negative margins High earnings environment (\$12–30/mo): └ Can offer 55:45 or even 60:40 to accelerate growth └ All 4 splits highly profitable at these levels Retention problems (>15% monthly churn): └ Increase user split to 55:45 or 60:40 if earnings >= \$9/mo └ Increase to 52:48 if earnings \$6–9/mo Strong retention (<8% monthly churn): └ Can maintain tighter split (50:50)	

Weekly Time Commitment

Phase	Weeks	Hours/Week	Primary Activities
1. Manual Validation	1-2	15-20	Outreach, onboarding, support
2. Landing Page	3-6	10-15	Influencer outreach, community building
3. Paid Acquisition	7-10	8-12	Ad management, optimization
4. Optimization	11-13	6-10	Retention, scaling, planning

Risk Checkpoints

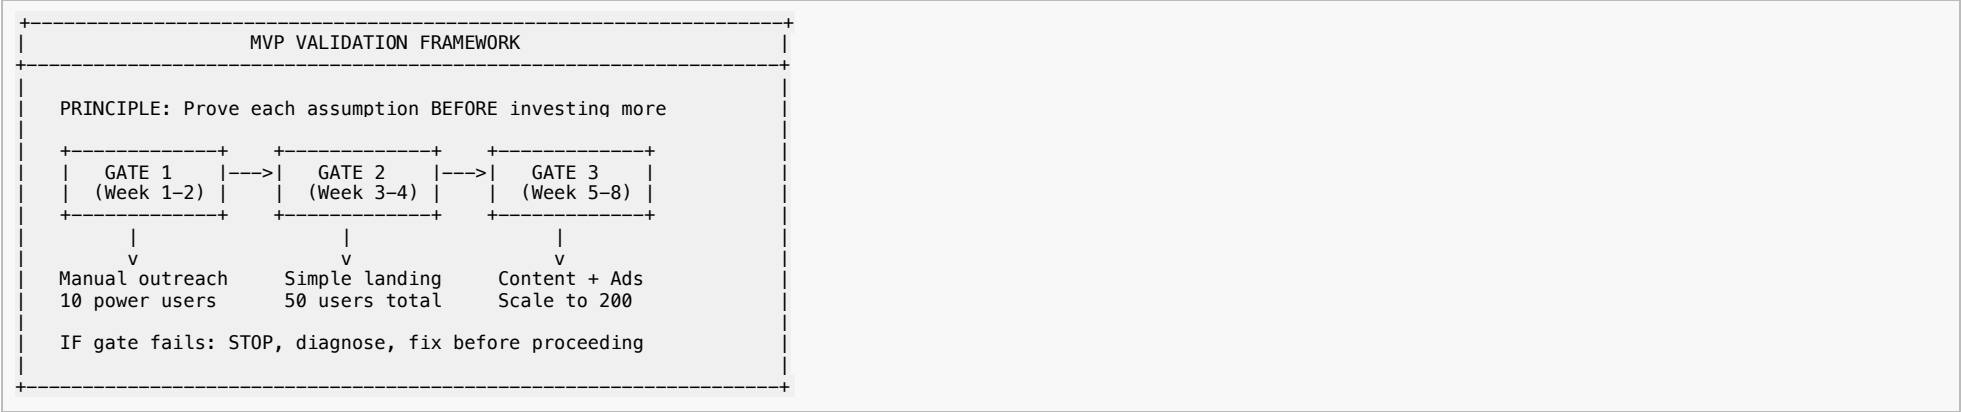

Week	Risk Check	Action if Triggered
2	<5 users signed up	Revise messaging, try different communities
4	<20% retention	Investigate drop-off reasons, improve onboarding
8	CPA > \$20	Pause ads, test new creatives
10	LTV < CAC	Reduce split rate or pause growth
13	Support >3 hrs/day	Hire part-time VA before expanding

2. MVP Validation Gates

The Problem with “Build Everything First”

The original plan assumes building full website, Discord, content library, and paid ads simultaneously. This wastes resources if core assumptions are wrong.

Validation-First Approach

Gate 1: Manual Validation (Week 1-2)

Investment: \$0 (your time only)

Goal: Prove people will sign up AND stay active

Task	Success Criteria	Failure Response
Recruit 10 power users manually	10 sign-ups in 2 weeks	Revise messaging/targeting
Achieve 80%+ uptime	8/10 users above 80%	Improve onboarding guide
Zero churn in 2 weeks	All 10 still active	Investigate drop-off reasons
Collect 3 testimonials	3 users willing to vouch	Fix user experience issues

Minimum Viable Assets: - Linktree with app download links - Simple Google Form for sign-up - WhatsApp/Telegram group (not Discord yet) - Personal outreach messages

DO NOT build yet: - Full website - Discord server - Paid ads - Content library

Gate 2: Landing Page Validation (Week 3-4)

Investment: ~\$50-100 (domain + simple hosting)

Trigger: Only proceed if Gate 1 passed

Task	Success Criteria	Failure Response
Launch simple landing page	Live within 3 days	Use Leptos, Carrd.co or Linktree Pro
40 additional sign-ups	50 total users	A/B test headlines
5%+ conversion rate	Landing page visitors to sign-ups	Revise copy/design
30-day retention >50%	25+ users still active	Improve community/support
Support load manageable	<1 hour/day	Create FAQ, automate

Build now: - One-page landing (Leptos, Carrd, or simple HTML) - Discord server with basic channels - FAQ document - Email welcome sequence (3 emails)

DO NOT build yet: - Full multi-page website - Paid advertising - Video content library - AI automation tools

Gate 3: Paid Acquisition Test (Week 5-8)

Investment: \$200-400 (ads only)

Trigger: Only proceed if Gate 2 passed

Task	Success Criteria	Failure Response
Test \$100 on TikTok	CPA < \$15	Pause, revise creative
Test \$100 on YouTube	CPA < \$12	Pause, try different targeting
150 additional sign-ups	200 total users	Scale winning channel
Maintain 50%+ retention	100+ users at 30 days	Investigate churn causes
Positive unit economics	LTV > CAC	Reduce spend, optimize

Build now: - 3-5 video creatives for testing - Full website with multiple pages - Referral tracking system - Support automation (bots)

61-70	Launch in translated markets	Marketing
70-80	YouTube campaign launch	Marketing
70-80	Implement AI automation tools	Tech
80-90	Referral program optimization	Community
80-90	Monthly transparency report	Community
90	Review and plan Month 4+	All

Milestone: 300 licenses, 1000+ Discord, sustainable growth

Success Metrics by Phase (Adjusted - Realistic Targets)

Note: Original projections were optimistic. These adjusted targets are based on industry benchmarks for DePIN/passive-income apps. Better to exceed conservative targets than underperform optimistic ones.

Original vs. Adjusted KPI Comparison

Metric	Original Target	Adjusted Target	Rationale
Activation Rate	70-80%	50%	Industry average for passive income apps
30-Day Retention	60-70%	40%	Similar apps see high early churn
Referral Rate (M3)	25%	10%	Organic referrals typically lower
CPA Target	\$5-7	\$8-12	Account for ad platform learning

Metric	Original Target	Adjusted Target	Rationale
Break-even	7 months	10-12 months	Conservative financial planning

Adjusted Metrics by Phase

Metric	Phase 1	Phase 2	Phase 3	Phase 4
Licenses Activated	-	35	100	200
Discord Members	15	75	300	700
Website Visitors	-	400	2,000	7,000
Cost Per Acquisition	-	-	\$10-12	\$8-10
Activation Rate	-	50%	55%	60%
30-Day Retention	-	-	40%	50%
Referral Rate	-	5%	8%	10%

Stretch Goals (If Conservative Targets Exceeded)

Metric	Phase 4 Stretch
Licenses Activated	300+
Discord Members	1000+
Activation Rate	70%+
30-Day Retention	60%+

Resource Requirements

Resource	Phase 1-2	Phase 3-4	Notes
Time	20-30 hrs/week	15-20 hrs/week	Front-loaded setup
Budget	\$200-500	\$1,000-2,000/mo	Mostly ads
Tools	\$50-100/mo	\$150-300/mo	As revenue grows
Team	Solo or 1 helper	Consider VA	For content/support

Risk Mitigation Checklist

Risk	Mitigation	Status
Website not converting	A/B test headlines, CTA colors	[]
Ads getting rejected	Follow platform policies, avoid "income" claims	[]
Discord inactive	Daily engagement, prompts, AMAs	[]
Low retention	Community building, referral incentives	[]
Competitor matching	Differentiate on transparency, community	[]
Technical issues	Clear FAQ, responsive support	[]

4. Digital Advertising Strategy

| **Note:** This strategy assumes an outsourced content model. You will NOT create TikTok or YouTube content yourself. All video content is commissioned from micro-influencers.

Platform Strategy Overview

Platform	Budget %	Primary Audience	Content Type
Micro-Influencers	40%	Existing audiences	Commissioned review videos
Meta (FB/IG)	25%	25-45, broader demographics	Carousel, Reels
Google	20%	High-intent searchers	Search ads
Reddit/FB Groups	10%	Community engagement	Organic posts

Platform	Budget %	Primary Audience	Content Type
Discord Tools	5%	Community management	Bots, automation

UTM Tracking	URL parameters	?utm_source=meta&utm_medium=paid
Attribution	Multi-touch	Google Analytics 4
ROAS	Platform reporting	Weekly review

5. Channel Priority Strategy

Content Strategy: Outsource Everything

KEY DECISION: You will NOT create TikTok or YouTube content yourself. All content creation will be outsourced to micro-influencers and paid promotions.

OUTSOURCED CONTENT STRATEGY

WHAT YOU MANAGE DIRECTLY:

|-- Discord community (core infrastructure)

|-- Paid advertising campaigns

|-- Influencer partnerships and payments

|-- User support and onboarding

+-- Community engagement and retention

WHAT YOU OUTSOURCE:

|-- YouTube videos -> Partner with micro-influencers

|-- TikTok content -> Spark Ads + influencer posts

|-- Instagram Reels -> Influencer partnerships

+-- Tutorial content -> Commission from creators

BENEFITS:

|-- No time spent on content creation

|-- Authentic third-party endorsements (more trust)

|-- Leverage existing audiences

|-- Scalable across multiple creators

+-- Focus on what matters: community + support

Channel Priority (Outsourced Model)

Platform	Priority	Your Role	Execution Method
Discord	#1 Core	Manage directly	Build & engage community
Micro-Influencers	#2 Growth	Commission & pay	Partner with 5-10 creators
Paid Ads (Meta/Google)	#3 Scale	Run campaigns	Direct ad spend
Reddit/Facebook Groups	#4 Organic	Post & engage	Personal outreach

Micro-Influencer Outsourcing Strategy

INFLUENCER PARTNERSHIP MODEL

TARGET CREATORS:
|-- Follower range: 5K-50K (micro-influencers)
|-- Niche: Passive income, side hustles, tech reviews
|-- Location: Philippines, India, Nigeria (target markets)
|-- Engagement rate: >3% (quality over quantity)
+-- Previous content: Honest reviews, not overly salesy

COMPENSATION MODEL:
|-- Flat fee: \$30-100 per video (based on audience size)
|-- Performance bonus: \$5 per sign-up from their link
|-- Ongoing: Monthly retainer for repeat creators
+-- Budget: \$200-500/month for influencer spend

CONTENT YOU COMMISSION:
|-- "I tried Unetwork for 30 days" review videos
|-- "How much I earned" earnings reveals
|-- Setup tutorials in local language
|-- Comparison videos vs competitors
+-- Short-form clips for TikTok/Reels

Finding & Vetting Influencers

Platform	How to Find	Vetting Criteria
YouTube	Search "passive income app review philippines"	Check comment authenticity, view/sub ratio
TikTok	Browse #passiveincome #sidehustle hashtags	Engagement rate, previous brand deals
Instagram	Explore page, hashtag search	Story views, comment quality

Influencer Outreach Template

Subject: Paid Partnership – Unetwork Review (\$50-100)

Hi [Name],

I run a Unetwork node operation and loved your video on [topic].
Would you be interested in a paid partnership to review Unetwork?

Offer:

Revised Budget Allocation (Outsourced Model)

Category	Budget %	Rationale
Micro-Influencers	40%	Outsourced YouTube/TikTok content
Meta Ads (FB/IG)	25%	Paid reach, retargeting
Google Search Ads	20%	High-intent captures
Reddit/FB Groups	10%	Organic engagement
Discord Tools	5%	Community management bots

Outsourced Content Flow

Why Outsourcing Beats Self-Creation

Factor	Self-Created	Outsourced to Influencers
Time investment	10-20 hrs/week	2-3 hrs/week
Content quality	Learning curve	Professional creators
Audience reach	Start from zero	Tap existing audiences
Trust factor	"This guy is selling something"	"My favorite creator recommends it"
Scalability	Limited by your time	Unlimited (just pay more creators)
Cost	"Free" but costs time	\$200-500/month

6. Localized Micro-Influencer Strategy

Beyond Generic Paid Ads

Replace 50% of generic paid ad budget with hyper-local influencer partnerships.

Market-Specific Approach

Market	Platform	Influencer Type	Content Style
Philippines	Facebook Groups	OFW community leaders	Tagalog + English mix
Nigeria	Twitter/WhatsApp	Tech Twitter personalities	Pidgin English
India	YouTube	Hindi-language creators	Full Hindi tutorials

Market	Platform	Influencer Type	Content Style
Indonesia	TikTok	Jakarta-based micro-influencers	Bahasa Indonesia
Kenya	WhatsApp/Twitter	M-Pesa/fintech enthusiasts	Swahili + English

Hi [Name],

I follow your content about [topic] and think your audience would love this.

I run licenses on Unetwork – an app that pays people to help test phone networks. Users earn \$5–30/month passively for just \$1.99/month.

I'd love to offer you:

- First month covered by me (I pay your \$1.99)
- Custom referral code (you earn on every signup)
- [Optional: \$X for a dedicated post/video]

Most of my users in [Country] are earning around \$5–12/month. Happy to share screenshots.

Would you be interested in trying it and sharing with your audience if you like it?

Best,
[Your Name]
[Discord/Telegram]

Influencer Tier Strategy

Tier	Followers	Approach	Budget	Expected Signups
Nano	1K-10K	First month covered + referral	\$2	5-15
Micro	10K-50K	\$50-100 + referral	\$50-100	20-50
Mid	50K-200K	\$200-500 + rev share	\$200-500	50-150

Content Collaboration Ideas

Format	Description	Best For
Earnings Reveal	Influencer shows their real dashboard	Trust building
Setup Tutorial	Step-by-step in local language	Conversion
Day-in-Life	Casual mention of checking earnings	Authenticity
Q&A/AMA	Address common objections	Objection handling
Comparison	“How this compares to [other side hustle]”	Differentiation

7. Single-Country Launch (Philippines)

Why Philippines First

Factor	Philippines Score	Reasoning
English proficiency	9/10	No translation needed initially
Crypto adoption	8/10	High awareness, GCash integration

Factor	Philippines Score	Reasoning
Freelancer culture	9/10	Already understand passive income
Income sensitivity	9/10	\$5-30/month = significant
Mobile penetration	8/10	Multiple devices common
Bank withdrawal support	Yes	Unetwork supports Philippines
Time zone	UTC+8	Manageable from most locations
UNO competition	Low	Not saturated yet

Philippines-Specific Strategy

PHILIPPINES LAUNCH PLAYBOOK

PHASE 1: SEED (Week 1-2)

|-- Join Filipino freelancer Facebook groups

|-- Post in r/Philippines, r/phinvest

|-- Target OFW (Overseas Filipino Worker) communities

+-- Goal: 10 Filipino power users

PHASE 2: GROW (Week 3-6)

|-- Partner with 2-3 Filipino micro-influencers

|-- Create Tagalog/English content mix

|-- Emphasize GCash withdrawal option

+-- Goal: 50 users, Filipino Discord channel

PHASE 3: DOMINATE (Week 7-12)

|-- Become "THE Unetwork community for Filipinos"

|-- YouTube content targeting Filipino keywords

|-- Facebook ads geo-targeted to Philippines

+-- Goal: 200 users, recognized in Filipino crypto scene

PHASE 4: EXPAND (Month 4+)

|-- Apply learnings to second market (India or Nigeria)

|-- Maintain Philippines as core community

+-- Goal: Profitable in PH, testing in market #2

Filipino-Specific Messaging

Generic Message	Filipino-Optimized Message
"Earn passive income"	"Earn extra using your phone - perfect for sideline!"
"\$5-30/month"	"P280-1,680/month - covers your load and data (and more)!"
"Multiple devices"	"Use your old phones na nakatambak lang!"
"Withdraw to crypto"	"Withdraw to GCash or Maya!"
"Join our Discord"	"Join our Discord - maraming Pinoy na!"

Filipino Influencer Targets

Platform	Influencer Type	Follower Range	Budget
YouTube	Freelancing/VA channels	10K-100K	\$50-200
TikTok	Finance/hustle creators	5K-50K	\$30-100
Facebook	OFW community admins	Groups 10K+	Free (value exchange)

GCash Integration Messaging

HERO MESSAGE:
"Withdraw your earnings directly to GCash – no crypto exchange needed!"

FAQ ADDITION:

Q: How do I withdraw to GCash?
A: Unetwork supports direct bank withdrawal in the Philippines!
1. Go to Wallet -> Withdraw
2. Select "Bank Transfer"
3. Enter your GCash account details
4. Receive pesos directly – usually within 1–3 days

Philippines Success Metrics

Metric	Month 1	Month 3	Month 6
Filipino users	30	100	250
Filipino Discord members	50	150	400
Filipino testimonials	5	15	30
Filipino influencer partnerships	1	3	5
% of total users from PH	80%	60%	40%

Expansion Trigger

When to expand to second market: - 150+ active Filipino users - 50%+ 30-day retention - 3+ organic testimonials - Profitable unit economics (LTV > CAC) - Support load manageable (<2 hours/day)

Second market options (in order): 1. India (English tier, bank withdrawal supported) 2. Nigeria (English, high crypto adoption) 3. Indonesia (requires Bahasa content)

8. A/B Testing Framework

Why Testing Matters

The original plan lacks systematic testing. Allocate 20% of initial budget to controlled experiments.

Testing Priority Matrix

Test	Priority	Impact	Effort
Headlines	1	High	Low
CTA buttons	2	High	Low
Ad creatives	3	High	Medium
Landing page layout	4	Medium	Medium
Pricing/split messaging	5	High	Low
Platform allocation	6	Medium	Medium

Week-by-Week Testing Calendar

Week	Test Focus	Variables	Success Metric
1-2	Headlines	Test 5 different website headlines	Bounce rate, time on page
3-4	CTA Copy	“Start Earning” vs “Get Free Access” vs “Join Now”	Click-through rate
5-6	Ad Hooks	Test 5 different opening hooks on TikTok/Meta	View-through rate, CPA
7-8	Audiences	Interest vs Behavior vs Lookalike targeting	CPA, conversion rate
9-10	Platforms	Reallocate budget based on best CPA	Overall CPA
11-12	Scale Winners	3-5x budget on top performers	Volume + CPA maintenance

A/B Test Template

+-----+
| A/B TEST DOCUMENTATION |
+-----+

| Test Name: [Headline Test 1] |
| Date: [Start] – [End] |
| Hypothesis: [Variant B will increase CTR by 20%] |
+-----+

Variants:
A (Control): "Your Phone Can Earn Money for Free"
B (Test): "Earn \$5-15/Month While Your Phone Sits Idle"

Traffic Split: 50/50
Sample Size Target: 1000 visitors per variant
Primary Metric: Click-through rate to sign-up
Secondary Metric: Bounce rate

Results:
Variant A: [X]% CTR, [Y]% bounce
Variant B: [X]% CTR, [Y]% bounce
Winner: [A/B]
Confidence: [%]

Action: [Implement winner / Test further]

Minimum Sample Sizes

Conversion Rate	Sample Size Needed (per variant)
~1%	3,000+ visitors
~5%	600+ visitors
~10%	300+ visitors
~20%	150+ visitors

Rule of Thumb: Don't declare a winner until you have statistical significance (95% confidence) OR at least 100 conversions per variant.

9. Community Health Metrics

Beyond Vanity Metrics

Discord member count doesn't indicate health. Track these instead:

Weekly Health Dashboard

Metric	Target	Warning	Critical
Daily Active Users (DAU)	>15% of members	<10%	<5%
Messages per Day	>50	<30	<10
Support Response Time	<4 hours	>8 hours	>24 hours
New Member Retention (7-day)	>40% still active	<30%	<20%
Earnings Posts per Week	>5	<3	<1
Negative Sentiment Ratio	<10% of messages	>20%	>30%

Monthly Community Survey

Send monthly survey to Discord members:

MONTHLY COMMUNITY HEALTH CHECK

1. How satisfied are you with your earnings? (1-5)
2. How helpful is the community support? (1-5)
3. Would you recommend us to a friend? (1-5)
4. What's one thing we could improve?
5. Any issues you're experiencing?

Incentive: Enter raffle for \$10 bonus for completing survey

Net Promoter Score (NPS)

Ask monthly: "On a scale of 0-10, how likely are you to recommend us to a friend?"

Score	Category	Target Distribution
9-10	Promoters	>50%
7-8	Passives	<30%
0-6	Detractors	<20%

NPS = % Promoters - % Detractors

Target NPS: >30 (Good), >50 (Excellent)

Community Health Automation

Check	Tool	Frequency	Alert
DAU tracking	Discord analytics	Daily	If <5% of members
Sentiment analysis	Manual review	Weekly	Spike in complaints
Response time	Ticket tracking	Weekly	Average >8 hours
Churn indicators	Member list review	Weekly	Spike in leaves

Red Flag Indicators

Indicator	What It Means	Action
Sudden drop in activity	Users losing interest or platform issues	Investigate immediately
Spike in “scam” mentions	Trust erosion	Address in AMA
Multiple withdrawal complaints	Platform or process issues	Prioritize resolution
Top earners leaving	Something wrong with economics	1:1 outreach
Referral rate dropping	Satisfaction declining	Survey to diagnose

10. Community Protection Strategy

The Threat: Competitor Poaching & Negative Sentiment

When building communities on Discord, TikTok, YouTube, and Reddit, you face risks from: - **Competitor UNOs** infiltrating to poach license operators - **Bad actors** spreading FUD (Fear, Uncertainty, Doubt) - **Disgruntled users** amplifying isolated issues

Anti-Poaching Measures

Discord Protection

DISCORD SECURITY LAYERS

LAYER 1: Entry Verification

- Require email verification to join
- New member quarantine (24-48hr read-only period)
- Captcha verification (MEE6 or Wick bot)
- Optional: Require existing license to access #earnings

LAYER 2: Role-Based Access

- @NewMember -> Limited channels (FAQ, general)
- @Verified -> After first earnings proof
- @ActiveEarner -> After 30 days active
- @Trusted -> Top contributors, moderators

LAYER 3: Automated Moderation

- AutoMod: Block competitor links/referral codes
- Keyword filters: Block "join my", "better offer", etc.
- Anti-raid protection (MEE6, Wick, or Dyno)
- Slow mode in sensitive channels

LAYER 4: Human Moderation

- 2-3 trusted moderators across time zones
- Clear escalation path for suspicious activity

+

--- Weekly review of new member activity patterns

|

+

Keyword Blacklist (AutoMod)

```
# Block phrases commonly used in poaching attempts
"better split"
"higher earnings"
"join my"
"my node"
"DM me for"
"free license" (since you're using paid model)
[competitor referral code patterns]
[competitor Discord invite links]
```

Competitor Identification Signals

Signal	Action
New account (<30 days old) + DMs multiple members	Flag for review
Posts competitor links/codes	Immediate ban
Repeatedly questions legitimacy without asking support	Warning
Screenshots from competitor dashboards	Investigate intent
"Just asking" about other UNO options	Monitor closely

Negative Sentiment Management

Response Framework

Sentiment Type	Response	Escalation
Legitimate complaint	Acknowledge, investigate, resolve publicly	None if resolved
Misunderstanding	Clarify facts, link to documentation	None
Coordinated FUD	Single factual response, then ignore	Document for patterns
Competitor astroturfing	Remove, ban, document	Report to Unetwork

Prepared Responses

For "Is this a scam?" questions: > "Great question - skepticism is healthy! Here's how you can verify: > 1. Check official Unetwork documentation at [unitynodes.io](#) > 2. See my node purchase proof [[link](#)] > 3. Review our earnings screenshots from real users in [#proof](#) > 4. Ask in the official Unetwork Discord to verify I'm a registered UNO > Happy to answer any specific concerns!"

For "I'm not earning much" complaints: > "Thanks for flagging this. Let's troubleshoot: > 1. What's your uptime showing in the app? > 2. Which tasks are enabled? > 3. How long has it been running? > Current average is \$X/month with 85%+ uptime. Post in [#support](#) and we'll help optimize."

Platform-Specific Protection

Platform	Risk Level	Protection Measures
Discord	High	Full verification + moderation stack
Telegram	High	Admin-only posting in main channel
Reddit	Medium	Monitor mentions, respond factually
TikTok/YouTube	Low	Moderate comments, pin clarifications
Twitter/X	Medium	Monitor mentions, mute bad actors

Building Loyalty (Best Defense)

The best protection against poaching is making users not want to leave:

Loyalty Factor	Implementation
Personal connection	Know top earners by name, celebrate milestones
Exclusive value	Content, AMAs, tips only in your community
Responsive support	<4 hour response time

Loyalty Factor	Implementation
Transparency	Monthly reports, honest about issues
Referral rewards	Users benefit from bringing friends

11. Support Load Projections

Realistic Support Time Estimates

Based on industry benchmarks for passive income apps:

Active Users	Daily Questions	Response Time Target	Your Daily Time
0-25	1-3	Same day	15-30 min
25-50	3-5	<8 hours	30-45 min
50-100	5-10	<4 hours	1-1.5 hours
100-200	10-20	<4 hours	2-3 hours
200-500	20-40	<4 hours	4-6 hours (need help)
500+	40+	<4 hours	Full-time + VA

Common Support Questions (By Frequency)

Question Type	Frequency	Solution
"Why are my earnings low?"	30%	FAQ + uptime checker guide
"App not working/crashing"	20%	Troubleshooting flowchart
"How do I withdraw?"	15%	Video tutorial
"License expired/issues"	10%	Step-by-step guide
"Changed phone, now what?"	10%	Migration guide
"Is this legit/scam?"	10%	Trust signals page
"Other"	5%	Manual response

Support Automation Roadmap

SUPPORT AUTOMATION BY PHASE PHASE 1 (0-50 users): Manual + FAQ -- You answer everything personally -- Document every question in FAQ -- Create pinned messages for top 5 questions +-- Time: 30-45 min/day PHASE 2 (50-150 users): Bots + Guides -- Discord bot for common commands (!earnings, !withdraw) -- Video tutorials for top 3 issues -- Auto-response for keywords +-- Time: 1-1.5 hours/day PHASE 3 (150-300 users): Community Moderators -- Recruit 2-3 power users as volunteer mods -- Give them "Verified Helper" role -- Small incentive (bonus referral rate) +-- Time: 1 hour/day (oversight) PHASE 4 (300+ users): Paid Support -- Part-time VA for first-line support -- AI chatbot (Tidio/Intercom) for website -- You handle escalations only +-- Time: 30 min/day + VA costs (\$200-400/mo)

Support SLA Commitments

User Tier	Response Time	Channel
Power Users (5+ devices)	<2 hours	Direct DM
Active Users (1-4 devices)	<4 hours	Discord #support
New Users (<7 days)	<4 hours	Discord #support
Inactive Users	<24 hours	Discord #support

Burnout Prevention

Warning Sign	Mitigation
Support >3 hours/day	Pause acquisition, build automation
Same question >5x/week	Create dedicated FAQ/video
Frustration with users	Take 1 day break, recruit mod help
Skipping responses	Reduce growth targets until sustainable

12. Competitive Response Plan

Scenario Planning

What if competitors adapt to your strategy?

Response Matrix

Competitor Action	Your Response	Timeline
Matches 60/40 split	Add value (fiat conversion, better support) OR match	Immediate
Launches Discord	Double down on community quality, not size	Ongoing
Starts paid advertising	Focus on organic + community referrals	Reduce ad spend
Offers free licenses	Emphasize quality over free (committed users earn more)	1 week
Undercuts with better terms	Compete on service, not terms	Do not race to bottom
Gets official Unetwork endorsement	Seek similar endorsement	1-2 weeks

Defensive Moats (Hard to Copy)

Moat Type	Implementation	Why It's Defensible
Educational Content	"Unetwork University" - definitive guides	SEO dominance takes months
Community Relationships	Personal connections with top earners	Trust takes time
Fiat Off-Ramp	Local payment partnerships	Requires operational effort
Localized Content	Native-language videos by locals	Cultural authenticity
Track Record	Months of transparency reports	Can't be faked

Competitive Monitoring

Monitor	Source	Frequency	Action Trigger
UnityRewards.io	Website, social	Weekly	Any changes
New UNO operators	Unetwork Discord	Weekly	New entrants
Pricing changes	Competitor sites	Bi-weekly	Rate changes
Ad activity	Facebook Ad Library	Monthly	New campaigns
Reviews/complaints	Reddit, Twitter	Weekly	Sentiment shifts
